

ST. JOHN BOSCO CATHOLIC SCHOOL

January 27, 2023

Dear Parents,

Enclosed you will find paperwork regarding student registration for the 2023-2024 school year. We are doing an auto enroll again this year for returning students. It is more convenient for families and is more efficient for the school to roll students forward into the next grade. Please fill out the necessary information regarding your financial choices and any changes in personal information. Auto enroll also allows students to have a secured spot in a class as we will be enrolling other Choice families February 1st. If you are not returning to St. John Bosco, you will need to notify us so the withdrawal process can be put into place.

The Board of Trustees elected to make some financial adjustments. Technology fees per student will be increased to \$50.00. Student Spanish workbooks will increase to \$28.00, which is our cost to provide them. Student assignment notebooks have risen to \$5.00. Students may purchase their own assignment notebook or purchase one from us. Everyone needs to have one in grades 3-8. Tuition has increased by \$50.00 per student. If financial aid is needed, please let us know as soon as possible. We do have a Tuition Assistance Program, application needs to be made by April 1st. We are also part of the Wisconsin Choice Program for families who qualify based on income and residency. Look at the enclosed sheet for a breakdown on costs for each student.

The school calendar for next year is also enclosed. Please look when we begin and end the school year and the various breaks during the year, and plan vacations during those time frames. We have found not only during the pandemic but during other years as well that instructional time missed by students is difficult to make up. When gone, students feel anxiety and pressure to complete missed assignments without the support of their teacher. The face-to-face engagement between classmates, instruction learned and support by teachers cannot be duplicated.

If you have any questions about registration, school calendar, enclosed information, financial aid, or the Choice Program please feel free to give me a call.

Your partner in your child's education,

Vickie Dassler, Principal
